Which Design, The New Silver Dollar? A \$45 Million Dollar Question!

by C. F. Verbeke

WASHINGTON D. C., July 28. Treasury — Post Office Appropriations: By a voice vote the House adopted the conference report on H. R. 10532, making appropriations for the Treasury — Post Office Departments. The conference report contains an item of additional \$600,000 for the minting of 45 million silver dollars, and is, in the terms of Representative John R. Pillion of New York, "a most reasonable and honorable adjustment of the differences between the House and Senate bills."

Were the Treasury to decide on the 1922 Peace dollar design for the newly approved silver dollar issue, it might well achieve a major strategic anti speculative victory.

For indeed 45 million newly minted silver dollars added to the original 1922 Peace dollar issue brings total minting up to 130 million pieces: largest silver dollar issue on record and well over half of the total Peace dollar series mintage.

Furthermore, this move would reduce the market price of the 1922 Peace dollar, currently selling at \$1.25, to strict face or perhaps a 2.5 to 5% premium. Since millions of these bright and weak strike coins are in the hands of the banks as collateral for 90 days renewable notes at 6 to 8% interest, speculators who paid \$1.200 per bag would be faced with an overnight paper loss of 20%.

Banks faced with this overnight windfall in reverse situation and the new Federal Reserve ruling limiting the collateral value of coinage, would be compelled to call loans outstanding on bags of Peace dollars and in case of default on the part of the adventurous pseudo numismatic borrowers, these same banks would become the questionably proud owners of a myriad of Peace dollars.

Since most banks did not finance silver dollars over face value, they would thus be in a position to liquidate the collateral without incurring a loss.

Losses of capital and interest to careless speculators would amount collectively to millions of dollars. The winners in the deal: banks or bank employees who obtained the silver dollars and sold them at 15 to 20% over face value to their clients, the ephemeral "coin brokers" who for a while shipped bags

Representative James F. Battin of Montana: "I would hope that they (the Mint) would put 1935 on them (the Peace Dollars) so the demand (collectors demand) would not be made."
Representative Compton I. White of Idaho: "I was going to suggest a Peace dollar with a 1922 date; perhaps that might stay in circulation a little longer."
Secretary of the Treasury Douglas Dillon: "Present plans call for the minting of the dollars . . . at the Denver Mint only, using an old design, and the 1946 date."

of silver dollars direct from Philadelphia at 15% to 18% premiums over face value.

A Statement before the House on July 28 by Representative Leonor K. Sullivan -D of Missouri leaves little doubt in anyone's mind who are the principal culprits. According to this Congresswoman: "The black-marketing of new coins by banks or bank employees is a blot on the entire banking industry. I know that responsible leaders of that industry are deeply concerned over the practice, particularly when they see advertisements for unlimited numbers of bags of brand new, uncirculated pennies, nickels, dimes, quarters, and half dollars at tremendous premiums. These new coins can get into dealers' and speculators' hands from only one source. That is, from banks receiving these coins from the Federal Reserve System for distribution through banks to the business community."

On the subject of dating future U.S. coins "1964," Representative

Sullivan had this to say: "None of us wants to end the practice of current dating of new coins — a practice as old as our constitutional government — and I hope the situation can be eased sufficiently by next December to make unnecessary to continue striking 1964-date coins in 1965."

Mrs. Sullivan has been the pioneer champion of the "equitable Kennedy half dollar distribution" cause; even before their issuance she addressed stern warnings to Congress and urged tighter controls of banks in their distribution practices. She expressed serious concern over the destiny of the prospective 45 million silver dollars when she stated during the same session: "The inclusion of \$600,000 to produce 45 million silver dollars in this fiscal year, as recommended by the Senate, should not cause any serious interference with the production of other coins, but I am concerned — as I know others are, too — over the manner in which those 45 million dollars can be effectively dis-

tributed. I am afraid they will disappear into thin air, and become high priced numismatic items."

Firmly opposed to the appropriation for minting silver dollars is Representative Silvio Conte — R. of Massachusetts. His main criticism is directed at the question of real necessity to reissue silver dollars and stated to that effect: "I question the value of depleting our stock by 35 million ounces of silver in order to mint a medium of exchange that is not needed in any quantity. Federal Reserve notes are in adequate supply and their production does not involve the use of a scarce and precious metal. I am not suggesting that the silver content in a silver dollar be reduced, since such a reduction would have disastrous effects on the prestige of our coinage. A reduction in the silver content would further cause a run on existing silver dollars, since the silver content melted down would now be more valuable, in proportion to the amount of the reduction. We already import at least 31 million ounces of silver a year. To use 35 million ounces of silver in the minting of unnecessary dollars seems foolish at this time. Furthermore, the prospect of minting 45 million silver dollars seems all the more ludicrous to me inasmuch as we have every reason to believe that these new silver dollars will fall prey to the coin collectors and speculators just as many of the old cartwheels have." In spite of the affirmation that he favors the retention of silver in U.S. coinage, Representative Conte is known to have at one time indicated, "that he felt a cupro-nickel or columbium coin might possibly take the place of the silver coin."

Favoring the appropriation is Representative Arnold Olsen of Montana, not without the explicit reservation that silver content in U.S. coinage should be reduced however. Mr. Olsen stated to that effect: "... we should prepare legislation that would cut the coinage use of silver in half. In other words, for coinage purposes, we should double the value of silver. We would thus remove the present ceiling on the price of silver. What is more, we should forbid the sale of any more of the silver stockpile. We should reverse our action of last year — which, in-

Overpriced? We Think So!

The 1964 Proof Set is now commanding a price roughly equal to the 1956, yet it has a proposed mintage of 7 times that of the 1956 set. It is commanding three times the price of the 1961 and 1962 Proof Sets which have 60% the mintage. This is a direct contradiction to all basic laws of economics. May we suggest that you sell all 1964 Proof Sets and buy Proof Sets in proportion to the actual market values.

Mid Year 1964, A Statistical Wonderland

Major Coinage In The Spotlight

By Russel K. Brown

If any one thing could be said about 1964 through July, it would be a statement to the effect that this was the year in which the coin collecting fraternity "discovered" the silver dollar, half dollar and quarter. After spending the entirety of 1963 running the Lincoln cent and the Jefferson nickel, dealers and collectors both settled upon major silver issues as a prime vehicle for investment and display.

With no other impetus other than this unspoken agreement, the year might have proceeded calmly, however such was not to be the case. The urge to complete the short Franklin set and the vast release of cartwheels from the Treasury lifted halves and the Morgan—Peace complex to new highs with each passing week of the spring buying season. Only in the late spring and early summer did the surge of price advances in these three series diminish and even though some declines are now evident within these major denominations, most prices seem to be holding steady.

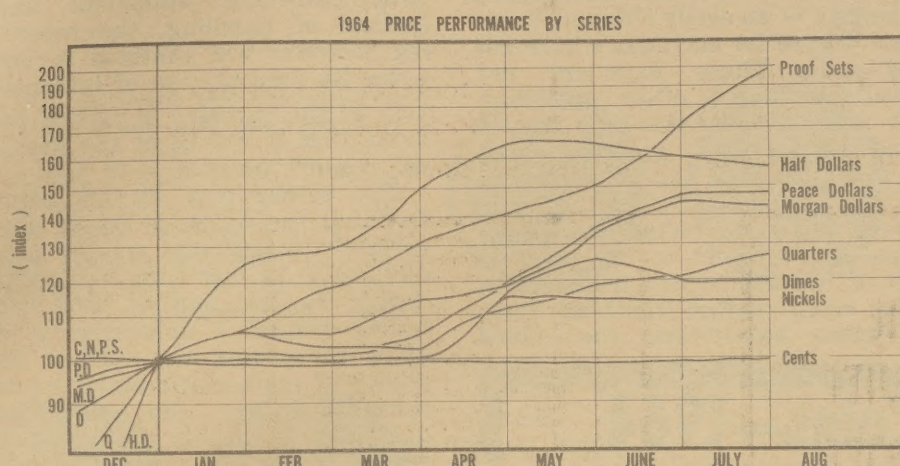

Perhaps a month by month review of the year would tend to point out not only where we have been but where we may be going.

January saw the last rush of a minor rise in the Roosevelt Dime and small increases in the Washington quarter and the Peace dollar. Mid January witnessed the end of the dime and quarter increase and a resumption of increases in the Franklin half which did not cease until late May. Proof sets were level after their November rise as were Jefferson nickels and Morgan dollars. Lincoln cents, after a tremendous promotion during the final three months of 1963 began to sag and remained on more or less of a level plateau throughout the spring and summer of 1964.

February brought declines to the dime and the quarter and continued small decreases by the cent. Half dollars leveled slightly but did not decline. Morgan dollars peaked out but after a short decline rallied and began to increase once again.

March saw the big push by the Franklin half dollar. The entire market took a back seat for a month while the series doubled in value. Jefferson nickels began to show slight unrest and buying activity appeared in spurts. Morgan dollars were steady while the Peace series staged a minor advance.

April was a repetition of October for the nickels. In a period of three weeks the Jefferson series rose almost twenty per cent in value and forecasters began to wonder if other series might follow suit. Sure enough the Roosevelt dimes took off two weeks after the Jeffs and rose about the same percentage. Meanwhile, half dollars continued to make new yearly highs with each passing week and the Lincoln cent steadied and rose for the first time in four months. During the last week of April the Washington quarter began a run that while not hard and fast, was of long

Here is a graphical presentation of coin activity during the first seven months of 1964.

This index has been prepared including the same issues used in the Market Pace. Each series has been assigned an arbitrary value of 100 at January 1, 1964. Performance for the year can then be determined by reading down the right side of the graph. The star performer for the year to date would therefore be proof sets, followed by Franklin half dollars and so forth. Of course, had the index been initiated at any other date, the ranking of the various series might well vary. But we feel that the above presented order sums up the activity of 1964 quite well.

The following shows the current index values of the eight series under consideration as of July 22, 1964 based on a value of 100.0 at January 1, 1964.

Lincoln Cents	98.4	Half Dollars	158.8
Jefferson Nickels	114.3	Morgan Dollars	143.2
Roosevelt Dimes	119.8	Peace Dollars	149.4
Washington Quarters ...	125.0	Proof Sets	197.2

Note that this year's growth pattern is in denominational order with only one exception.

duration, lasting till the present day.

May witnessed a continuation of firming in the Lincolns, advances in dimes and general price inactivity in nickels, halves and proof sets. During the last weeks of May, the silver dollar got its last big play and rose a flat twenty per cent across the board. Most of the dollar action centered around the medium priced Morgans though enormous quantities of the cheap dates in bag lots found their way into investors' storerooms. In June, the silver dollar activity continued unabated. All other denominations were in decline or generally inactive. Proof sets began to see signs of life though there was very small volume in the initial stages of the proof run which was soon to follow.

July brought us the two weeks which will be known to future generations of numismatists as the proof set madness. In an overnight action, what had started out to be a small scale "run" by several dealers gained momentum with the announcement of the discontinuation of set manufacture and snowballed into the most rapid price rise any series has yet seen. Prices on some sets doubled overnight and even the most unsophisticated of coin market speculators made handsome profits if they entered the melee during the first week. The proof set boom was so violent that it completely killed the advance of the Morgan and Peace dollars and nipped in the bud a renewal of advance by the Franklin half.

So we see that the net result of 1964 to this point in time has been a gain by the investors in Franklin halves, silver dollars and proof sets provided they bought in early enough, and break even or worse by the holders of the smaller denominations when the twenty five per cent cost of coin investment is taken into consideration. Surely

the holders of Lincoln cents have had a rough time of it for the last nine months. With general price levels actually below what they were in December of 1963, a fairly substantial loss has been shown by most of those who were forced by economics to liquidate their positions in the Lincoln series.

Sponsors of the Jefferson and Roosevelt series have not had it much better. With a gross rise of approximately 15 percent, no great profit has been shown by investors in these denominations. Of course, there are exceptions such as the 1950-D nickel with its \$250 rise in the late spring. For that matter, profits were possible in the Lincoln series also if the shrewd investor played the fast rise of the small dates in April. But on an overall basis, all three series did not experience much prosperity.

One of the real accomplishments of 1964 has been the adaptation of some forms of statistics to the coin investors' problems. Until late 1963, the only price guides on the market with any following were those of a completely retail nature published by Coin World, Yeoman and others. While a very great aid to the collector these guides had two major shortcomings. First, they were admittedly retail and the user had to figure mentally the wholesale prices. Second, they were always at least several weeks behind the market or even more in some cases.

Seemingly all at once, the problem was faced and solution attempted by several different groups. Pace, of course, determined to use a newspaper approach with as complete coverage as possible. Others with varying degrees of success opined that all the investor wanted or needed was an up to date price list and undertook to give it to him in the form of air mailed newsletters. At the present time there are approximately six to ten of these newsletters on the market with circulations ranging from the hundreds to the thousands.

The newsletter editors ran into a problem as soon as competition developed. With all of the newsletters giving the same information, something had to be added that would set their paper apart from the others. Several dropped prices altogether. But most determined that an analysis of coin prices by graph, chart and other statistical formats would be a prime method of insuring the continued loyalty of their readers.

Unfortunately, all of us, Pace included, ran into two major problems, neither of which has been solved as well as might be hoped. First, there are few if any wholesale price data available prior to 1963 no matter what some editors would have you believe. Second, and this is far and away the biggest problem, no one knows just how many of each coin there are in the various conditions or grades.

This last lack of information is particularly costly. For most of us immediately realized that a relation exists between price and

55 Issues Lead The Market

Many of the nation's coin dealers are wondering this week just what is happening to the 1955 series in all denominations. Beginning last week rolls of almost every 1955 issue have been heavily traded and have risen in price. Some of the 1955 issues have advanced as much as twenty per cent. Below is a box score on the '55's.

mintage. If there are great numbers of a coin available, the price will be low. If there are only a few, it will be high. By multiplying mintage times price, a right factor can be obtained which, when ranked against other similar factors gives advisability of purchase or sale. At least it would if the population of an issue by grade could be determined. But it can't. And so this method, be it done by computer, log or semi log graph, linear chart or what-have-you is doomed to failure.

This failure must not be regarded as the end of the line, however.

All of us are constantly working on new methods of evaluation and it is generally felt that while no one method has yet been completely successful, the data obtained from the various attempts are of use in planning an investment program.

Another shortcoming on our list of available data for attempted analysis is an easily obtainable volume figure for each day's business by series. These data are not available in any other way than by scanning teletype tape day in and day out and entering each transaction on a log of some sort either automatically or by hand. Until this is corrected, we will be unable to present to the investor all of the aids which investors in the stock market have at their disposal: aids which use volume

as a key figure in calculating whether the market is up, down or in between.

It is doubtful that the day will ever come in which some investment letter or newspaper will tell you with certainty that this issue is going up and that is going down. But with improvement of data gathering equipment and method of handling, the reporting industry will continue to improve its presentation of information to the investor in such a fashion that it will be of the greatest possible assistance to him.

The reader may at this point feel that the writer is trying desperately to postpone making predictions as to just what will occur during the last half of 1964 and hiding behind a smokescreen of abilis concerning the current inability of numismatic statistics to correctly answer the necessary questions. If such is the case, the reader is partially correct. Further, this writer is going to make no attempt to predict which issues are ready to run in late 1964. But we can state a few generalities which the coin investor may well use to formulate his plan of action during the coming months.

As an overall view, one might well tend toward optimism for the

fall and winter of 1964. There are several factors which have always influenced the coin market in an upward fashion and they are still very much present. The ranks of collectors and investors continue to swell with new recruits, and every new member creates new demand, which raises price which tempts more people to join the ranks and on and on. Another factor is the continued production of new albums and holders with changes in grouping which will result in more collections and increased demand for coins, particularly the key dates.

The continuation of the 1964 date into 1965 will draw large amounts of current date invest-

Large U.S. Copper Cent, A Modern Appraisal

Helfenstein Sale Barometer For Future Prices?

By CHRISTIAN VERBEKE

ATTEMPTING to write about large cents of 1793 to 1857, even in the most general sense, is presumptuous.

Large cents have achieved to the fullest extent the desirable status of true and pure collectors items. In the age of rolls and bags in numismatics the word "investment" is rarely mentioned with regard to pre 1900 coinage. Right or wrong, contemporary numismatic investment philosophy has chosen the easy road and thus it is that the 1950-D nickel in uncirculated condition sells for \$25, a trifle under a desirable uncirculated 1845 large cent specimen.

It is not by accident this essay is written, for indeed this coming August 14 the Louis Helfenstein collection of large cents will go under the gavel at the Barclay Hotel in New York City. The entire collection of 332 coins will be sold by well known Lester Merkin.

In a 64-page catalogue of exquisite taste, Mr. Lester Merkin has presented the entire contents of the sale. Expertly documented the catalogue in itself is an esteemed reference work.

The step-by-step description of each coin, its individual history and pedigree of ownership listed in chronological order, are some of the exclusive features of this catalogue. Names of former owners include Newcomb, Sheldon, Douglas Smith, Holland, Sloss, New Netherland, Copley Coin Company, etc.

It must be emphasized that the Louis Helfenstein collection is a study in varieties itself; most large cents in the 332 lots offered are of a recognized variety and have been described prior to this sale in Sheldon, Crosby, Hays, etc.

Excellent reference books have been written on the subject of large cents. All have one thing in common: they have approached the subject with the uttermost of numismatic erudition. Most esteemed works include: S. Crosby, The Cent and Half Cents of 1793; W. Hays, The Cents of 1794; Gilbert Elder, The Cents of 1796; F. Doughty, United States Cents; G. Clapp, Cents of 1798 and 1799; H. Newcomb, United States Copper Cents 1816-1857; Wm. Sheldon, Penny Whimsy (1793-1814).

For the newcomer to the field of large United States Cents, it should be remembered that large U. S. cents were issued under different authorizing acts.

Minor U. S. coins were first manufactured at the Philadelphia Mint in 1793. The act of April 2, 1792 authorized the issuance of a pure copper cent weighing 264 grains (see exhibit I).

EXHIBIT I

Two major varieties are encountered: the Chain type reverse and the Wreath type reverse. Numer-

ous sub varieties are encountered and their study and description is a science in itself.

The act of January 14, 1793 reduced the weight of the U. S. cent to 208 grains of pure copper. A design change was adopted concurrently known as the Liberty cap type active until 1796. (see exhibit II).

EXHIBIT II

As in the case of its predecessor, many subvarieties are known.

The act of January 26, 1796 provided for the issuance of a pure copper cent weighing 186 grains. This second successive reduction in weight was prompted by higher copper prices. The 1796 cent, called the Draped Bust (Liberty facing right) continued to be issued till 1807. (see exhibit III).

EXHIBIT III

A design change was adopted in 1808 referred to as the Turban Head (Liberty facing left), same weight characteristics were maintained however. This design was issued till 1814. (see exhibit IV).

EXHIBIT IV

Still issued under the authority of the act of 1796 a new design was adopted in 1816 referred to as the Coronet type (Liberty facing left), this design was to run till 1839. (see exhibit V).

EXHIBIT V

Finally in 1839 the last and final design of the large U. S. cent made its appearance, referred to as the Braided Hair type. This design was to run till 1857. The act of February 21, 1857 did away permanently with the large copper U. S. cent. (see exhibit VI).

EXHIBIT VI

The large cent series were plagued from the beginning by unpopularity and widespread design criticism. As early as 1793, the Boston Argus wrote: "The American Cents do not answer our expectations. The chain on the reverse is but a bad omen for Liberty, and Liberty herself appears to be in a fright." Successive copper price increases during the issuance of the large cents prompted second weight reductions for reasons of economy. By 1851 the price of copper had risen to a point where it cost the government more to issue the coins than their face value thus precluding any seignorage.

Of considerable numismatic interest is the forgery of the 1804 cent. The deed was perpetrated by mint employees and is referred to as the "1804 restrike of 1860". Easily identified, the forgers used a poor 1804 obverse die with a 1818 reverse die considerably different of the 1804 reverse.

The mintage figures for large U. S. cents are extremely modest by modern standards. Most years range in 2 million pieces. Highest mintage was a record 9,889,707 pieces struck in 1851. Lowest mintages can be found in the 1793 varieties, i.e. 1793 Liberty Cap type 11,056 pieces struck. Of more recent vintage is the 1811 issue 218,025 struck in all varieties. (see exhibit VII).

Prices of Large U. S. cents have demonstrated remarkable stability

over the years. Red Book prices can be considered reliable for grades fair to very fine. Grades over very fine listed in the Red Book are necessarily subjective, and can only be used as a general guide. Uncleaned red to bright red specimens command considerable premiums.

True collectors of large U. S. cents take into consideration degrees and shades of iridescence. Proof like uncirculated gem conditions are encountered but are considered exceptional and truly rare. Several grading systems of extreme specialization have been worked out. The beginner should not attempt to make a commitment in large U. S. cents without the help of expert advice.

The Louis Helfenstein collection to be sold this forthcoming August 14 in New York by the office of Lester Merkin is unquestionably a major numismatic event of 1964. Prices realized at this auction should set the pattern for future prices.

Dealer want ads continue to express interest in large U. S. cents; uncirculated specimens of common dates bring \$20 each when sold to dealers. No doubt substantially higher prices should be realized at the Louis Helfenstein sale, the choice material offered at this sale may not be within the reach of the average collector however.

A type collection of large U. S. cents however is a real attractive participation in this exclusive market. Acquisition of all size designs is still relatively high as the lowest 1793 Wreath and Chain types bring respectively \$75 and \$115 in fair condition. A reputable Liberty Cap type in V.G. condition could be found for \$30, e.g. 1795

Cashdan's Coin Comments

Eliot J. Cashdan

THE latest piece of idiocy to emanate from Washington has come from the Comptroller of the Currency Saxon. Mr. Saxon in his position can virtually dictate the policies of all of the National Banks in the country, and he has decided that the National Banks can

not accept coins as collateral for loans at over 70% of their face value. In other words, if you wish to put up a bag of silver dollars which is \$1,000.00 face to secure a loan of \$1,000.00 at any National Bank, they would have to turn you down on the \$1,000.00 loan be-

cause Mr. Saxon said they could only lend you \$700.00 on \$1,000.00 face.

The more one thinks of this, the more ridiculous it seems, especially when the ruling of the Comptroller of the Currency says in so many words that United States coins are only worth 70% of face value when used as security for loans. We do not think that this will tend to instill confidence in the way this administration is handling the coin problem at all. What must our foreign neighbors think of our economy and our whole system of coinage and money if one of the men in charge says in effect that it is only worth 70% of face value, unless of course, you wish to spend it.

We believe that the whole aspect of borrowing money against coins as collateral has been greatly exaggerated. From the studies we have made of the matter since this ruling was put into effect, we find that most of the large bank loans on coins at face value are for bags of silver dollars. The average collector and investor does not have a quantity of minor coins 'pawned' at the bank. One of the main reasons for this is that most banks have storage problems, and cannot make loans on bags of cents, nickels, or dimes without running into a space problem.

Another reason is that when you make a loan at a bank and put up coins at face value to secure the loan, you are not very much ahead if you use the scarcer date bags or rolls as collateral. It wouldn't be very much help to an investor to pay about \$1,900.00 today for an uncirculated bag of 1960-D small date cents and

then take them to his bank and borrow \$50.00 on them.

The reason that there are so many bags of silver dollars used as collateral for face value loans is that there are so many bags of silver dollars that have been purchased for just a little over face value. Therefore an investor who wishes to gamble on the price increase of silver or silver dollars, or both, could place several bags of dollars away without laying out too much cash. Of course he would have to pay the interest at regular intervals, but his bags of dollars would be in a safe place, and the bank would have 100% security for the loan. To our way of thinking, the best loan a bank could make would be a 100% coin loan. On what other loans do they get 100% collateral that needs no conversion into money in case of default?

Of course there are still avenues open to the investor who wishes to borrow money at face value and leave his coins for security. The State Banks in the various states are not obliged to listen to Mr. Saxon as they get their charters from the state and are not under regulations the same as the National Banks which are Federally chartered. There are also various lending agencies which will make loans on coins, but their rates are usually higher than the banks.

Many people have been writing to the various congressmen about the proposed manufacture of 1964 coins in 1965, and we saw an interesting response the other day. It seems that this man wrote and asked his Congressman how the annual Mint and Assay Commission would be able to properly test the 1965 coinage if it bore the date of 1964. The Congressman in turn wrote to Eva Adams, the Director of

the Mint, and here is the gist of her reply. When the Mint and Assay Commission meets to check the 1965 coinage, they will be given envelopes of coins which were struck in 1965. The way they will know that they were struck in 1965 is that they will be placed in envelopes and marked at the Mint 'struck in 1965'. Then when they check the coins as to weight and fineness, they will know that they are checking 1965 coins and not 1964 coins. That is real simple, isn't it?

We still can't figure out why the coin collector and investor has to be made the goat and held responsible for the existing situation. The closing of the San Francisco Mint in 1955 was fought on all sides, but the politicians, who know practically nothing regarding the coinage problems in our country, went ahead and saw to it that the San Francisco Mint was closed. The advice that they all received from the 'experts' was that the Denver and Philadelphia Mints could certainly more than take care

of the coinage needs of the nation for years to come and that the San Francisco Mint was obsolete and entirely unnecessary. We are wondering if there is any way of making some of these brilliant souls eat their words today. We also wonder if it is possible to reactivate the San Francisco Mint at once and stop all of this foolishness.

Another item that came to our attention, and this is from the rumor factory, is that the

7 EXCITING REASONS WHY YOU SHOULD ORDER THIS SENSATIONAL BOOK TODAY

1 THE COIN MYSTIQUE

A micro-economic analysis of the coin investment market in the United States during the past half-century, the factors that are essential for continued growth, and a projection of things to come. An invaluable wealth of knowledge in forecasting future market movements.

2 THE FINE ART OF NUMISMATIC FORECASTING

An application of the economic factors and tools that are used by the professional in forecasting price and volume activity. How to construct your own Diffusion and Duration-of-Run Indices; The Theory of Fore-shadowing Statistics; Leading, Lagging and Coincident Indicators; Forecasting Turning Points; etc. Now you too can forecast future market changes for any coin, by using proven, sophisticated methods.

3 MARKET ANALYSIS FOR MAJOR INVESTMENT COINS

A timely review, with specific buy and sell information, on all of the coins listed above. Not merely short recommendations, but a thorough investigation of the price and activity history of each coin, with all the pertinent data you need for accurate forecasting and decision-making. Plus professionally-drawn graphs, charts, etc. **MORE USEFUL INFORMATION THAN EVER BEFORE AVAILABLE.**

4 THE ELECTRONIC MONSTER

An unemotional evaluation of the actual impact of national teletype activity on coin prices and scarcity, and how to use teletype to your greatest advantage!

5 WALL STREET AND NUMISMATIC ALLEY

An eye-opening examination of the similarities and differences between the two great markets, which techniques can be used in both markets, and the relative advantages and disadvantages for the aggressive investor.

6 THE THEORY OF CROWD PSYCHOLOGY

A complete investigation of a time-tested stock market investment philosophy that has made millions for its devoted followers, and how the average investor can condition himself to its principles.

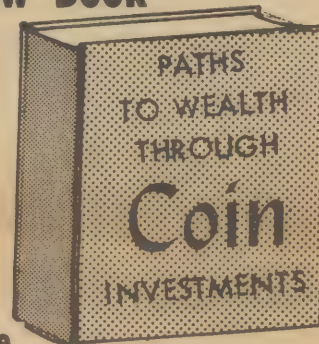

7 A MILLION DOLLAR TAX-FREE ESTATE IN SIX YEARS

A clear-cut investment program, complete with all details, including our copyrighted "LEVERAGED PYRAMID INVESTMENT TECHNIQUE," demonstrating how to parlay a \$1000 cash investment into a \$1,000,000 AFTER TAXES, in just six years. This is a workable plan, based on present ratios and activity, and should work for any diligent investor who will faithfully follow its patterns. This revolutionary development is well worth the price of the entire book!!

PATHS TO WEALTH THROUGH COIN INVESTMENTS

Revealing The Inside Facts and Techniques of How The
Professional Coin Investors Forecast Prices and Control The Market

The American Investment Council

The Council has been established to bring together the foremost numismatic investment experts in the nation, and present to the coin investor a greater abundance of investment information and advice than was ever before possible. In addition to the gentlemen pictured above, Frank Arko, publisher of INTERNATIONAL COIN INVESTOR, one of the foremost newsletter services in the nation, and Christian Verbeke, brilliant editor of PACE, NUMISMATIC FINANCIAL NEWS WEEKLY and outstanding numismatic authority, have both made major contributions to this book.

Dramatic Proof—From Investors Like You!

"PATHS TO WEALTH THROUGH COIN INVESTMENTS should be required reading for all serious investors, regardless of previous experience or success. Good, sound advice for the novice investor as well as informed discussion and examination of statistical and philosophical techniques for the seasoned professional."

Richard Gordon
Durham, North Carolina
"Probably the most carefully and thoroughly researched book of its kind available today. I recommend it to all."

Monroe Rackow
Philadelphia, Pennsylvania
"A brilliant application of micro-economic principles to the forecasting of future coin prices. This should finally put an end to the meaningless published projections of coin prices based primarily on past performance. PATHS TO WEALTH THROUGH COIN INVESTMENTS will become a classic in numismatic literature."

Steven Kaufman
New York, New York

Design

(Continued from Page 1)

cidentally, I voted against — and discontinue the retirement of silver certificates. Of course, this would affect the market price of silver, inasmuch as all the other users of silver—industry, jewelers, and silversmiths—would have to go outside the Treasury to the domestic and world mines and markets to obtain their supplies, at whatever the market price. No longer could they obtain silver from the Treasury at the artificial price of \$1.29 an ounce, by the redemption of silver certificates or otherwise.

Not only the sound money of the future demands this activity, but what is more, the already issued coin can only be protected by early action, and long before our silver stockpile is depleted." Somewhat as a surprise came the opposition to the appropriation by Representative Compton I. White of Idaho. Traditionally, silver state congressmen have supported strong silver policies, minting of silver dollars and the maintenance of silver as a major currency backing metal. Representative White explained his position in the following terms: "... I come from a State where silver dollars have traditionally been the medium of exchange — Idaho — one would assume I would be in favor of the minting of an additional 45 million silver dollars. If I believed that the 45 million silver dollars would stay in circulation, some in my district, I would wholeheartedly support such minting. I have looked at the record of last year's Treasury stock of silver dollars. We entered 1963 with 200 million silver dollars in vaults of the United States. That was in excess of the need for silver dollars in my area and the remainder of the western part of the United States. We have seen that supply completely dissipated. It is all gone except for 3 million of a peculiar numismatic value which the Secretary refuses to allow to go to circulation, because he knows that the minute they go into circulation they will be picked up by coin collectors. Also, they have a value far in excess of the face value because they are of particularly rare dates.

I believe it is evident that the minting of 45 million silver dollars will not solve the problem. The situation I would like to have exist is keeping the silver dollars in circulation.

However, I say this: we are going to have an increasing run on our silver stocks. I believe the curve will change its slope and we will have an acceleration of our silver sales and redemption of silver certificates. I believe we will be faced with the increasing problem in our coinage needs sooner than many people project." On the subject of doubling the present value of silver, thus raising the price to \$3.586, the views of Messrs. White of Idaho and White of Montana are identical. This is easily explained by present silver production patterns of both States. Idaho and Montana will inevitably face depletion of important silver reserves. At \$1.293 per ounce silver mining is becoming increasingly unprofitable. At double its present value silver production in Montana and Idaho could greatly contribute to the economic welfare of both States.

Mid Year

(Continued from Page 4)

ment money off and channel it into purchases of earlier key and semi key merchandise. This additional purchasing of older merchandise will act materially toward increasing prices.

Many of the purchasers of silver dollars who used their holdings as collateral for bank loans are going to be faced with large interest payments during the fall of the year and their intent to hold for the long term will weaken somewhat. If sizeable numbers sell out their dollar stocks, the prices could break sharply and precipitate more sales. Since it is a privately admitted fact among most dealers that few people actually collect cartwheels, there will be little incentive to purchase them for use other than accumulation of silver bullion. If the price of silver does not increase within three years, many of these investors are going to be hurt.

On the other hand, the minting of silver dollars during the year 1965 and the knowledge of this minting-to-come in 1964 could well revive collecting interest in dollars, particularly the Peace series if that is the design chosen for the new issue. Whatever happens,

bear in mind that the big run on dollars has buried tens of millions of numismatic investment dollars and when these funds are brought to the surface, the entire market will take an upswing.

As far as the proof set market is concerned, we feel that it will go in two directions during the remainder of the year. The older sets will continue to rise in price as more and more are broken up and placed in private collections. But the current sets will be the first to decrease in price when the interest in proof sets subsides. We also feel that the 1964 set is overpriced and that it will decline in value as soon as the demand for the proof Kennedy half is filled. Remember how the uncirculated Kennedy halves rose to double face and then dropped back to their current small margin over face. While the proof set will probably not see ten dollars again, it will probably approach that price as the demand slackens. If we were forced to advise the purchase of any coin as an investment, it would have to be proof sets dated 1936 to 1953. There are so few of these sets available that they can only increase in price.

One of the brightest spots on the investment scene is the Canadian market. Reference to listings of short mint runs by the Canadians during the fifties and comparison of these totals to our own make it look as though they were still using beaver pelts for barter. In most of the issues, particularly the major coinage from quarters on up, the available supply is approximately one tenth ours or less. If coin collecting grows in Canada as it has in the U.S., fortunes could be made in key and semi key investments. The only danger would be the supply is so small that demand will not have the running room, so to speak, to build up. We feel, however, that the Canadian field of investment is fully as promis-

ing as our own at this time.

In closing, let's examine the situation on a broad scale. In 1963, minor coinage was in tremendous demand and appreciated significantly in value. In 1964, the reverse has been true.

Major coinage has caught up and in some cases surpassed the performance of the lesser denominations. It would be nice to assume from this point in time onward, that each of the series will proceed at the same rate of increase. But such will not be the case. We will continue to have one or at the most, two series at a time in contention for the market lead and from here, it looks like the fall will once again see lesser coinage in the forefront of the market.

meet anyone in Britain who set aside quantities for investment years ago. The policies of hoarding quantities of modern coins, so prevalent in America, was virtually unheard of in England until the late 1950's.

The 1946 penny is discussed as just a representative example of many opportunities in the British field.

Minor coins of other countries are also neglected today. There is little interest in collecting mint condition minor coins of France, Switzerland, most South American countries, etc. As a result the astute investor by careful shopping can acquire great scarcities for a few dollars each. The only real problem is finding the opportunity to buy the coins; when the opportunity does present itself invariably the coins are reasonably priced.

The purpose of this article is not to direct you toward any one foreign field, but to suggest to you the vast possibilities open in this regard. Twenty years ago rare dates of Canadian coins could be had for the asking at nominal values. Today rare dates of literally dozens of different countries

may be bought for nominal premiums above face value.

The trend toward world coins is here. Most of the field of world coins represents a virgin area to the investor . . . an area in which few others have tread so far . . . an area with many exciting possibilities.

It is only fair to mention here that the field of foreign coins has its pitfalls. Grading, counterfeiting, occasional restrikes . . . all these items so well known to American collectors and investors also occur in the foreign field. It would be foolish to invest in foreign coins without learning about them first. The first step to any investor contemplating foreign coinage should take is to purchase books covering the field. A little time spent in gaining knowledge should repay the investor in foreign coins many times over. The field of foreign coins for investment purposes has only been scratched . . . the market is yet to come.

Cashdons

(Continued from Page 11)

Mint expects to catch up with the demand for coins within the first six months of 1965. In

case you didn't know the Mint works according to a fiscal year, not the calendar year. The fiscal year of the Mint is from July 1st through June 30th. It was told to us that it is quite possible that starting with the fiscal year in July of 1965, considering that the 'shortage' had been overcome, the manufacture of coins dated 1965 would begin. As we mentioned previously, anything is now possible in Washington as they can always find ways to twist things around and make up rules and regulations as they

go along. So it still is possible that some day we will have 1965 coins.

At least we think that the new silver dollars that were authorized will bear the date 1965. It would seem kind of foolish to start manufacturing a coin that has not been made in this country since 1935 when the last dollars were struck, and make them with the wrong date on them. We suppose that the coin collectors will be blamed for the disappearance of all the new silver dollars, all 45,000,000 of the ones that were

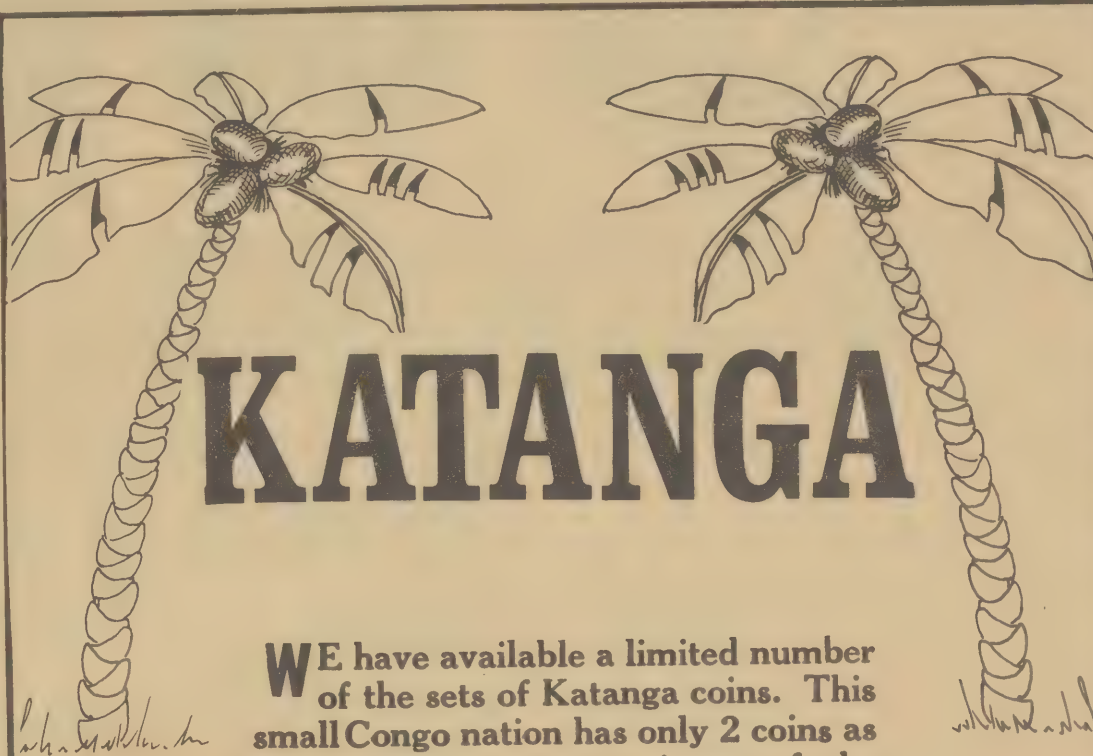

authorized, but it will probably be the same story as the Kennedy half dollars. Most of them will be gobbled up by individuals who are not collectors, but the collectors and the whole hobby will be blamed for it.

WAIT

Take just one minute and read this comment.
Let me give you a few facts about Canadian coinage.

The United States government has announced its intentions to discontinue production of Proof Sets.
Where will all the funds that, up until this time, have gone for the purchase of U.S. Proof Sets, go?
This money will go for the purchase of Canadian Proof-Like Sets and Prooflike Dollars.

Even prior to the announcement by the U.S. government, the Canadian mint was refusing orders for these sets and dollars due to the fact that their present facilities were operating at maximum capacity.

Compare the low mintage of the Canadian mint to those of the U.S. mint.

You will notice a drastic difference between mintages and current price ranges.

Also you will note the improved quality in the coins during the last few years as compared with prior years.

We invest and support the Canadian Proof Like Set and Proof Like Dollar because of:

- (1) The increased interest and price rise in these Canadian Coins.
- (2) The announcement of no more U.S. Proof sets.
- (3) The low mintage-price relationship.
- (4) The improved quality of these coins.
- (5) The new design on the Canadian dollar creating a new series.
- (6) The forthcoming adoption of a new design in all denominations for 1965.

We offer to you an opportunity with unlimited investment potential.

Study the facts that we have mentioned. Compare our prices with those published by any other firm in any other publication. We will be glad to give you any additional information or prices that you may request. Please write or call.

MacARTHUR PESO AND HALF PESO

With the recent passing of General MacArthur, already there are plans to strike commemorative medals in his honor. The Philippine government was way ahead of us, in 1947 as a tribute to their liberator, two commemorative coins (peso and half peso) bearing his portrait were struck at the U.S. Mint in San Francisco.

The coins bear the date 1947 with the S-Mint mark above the date. Only 100,000 pieces of the one peso were struck and 200,000 of the half peso pieces were struck. We consider them to be greatly under-priced in relation to the small quantities minted. This coin should definitely be a part of every foreign coin collection, and we expect the day to come when they will be listed in the Guidebook of U.S. Coins along with other Philippine issues. The 1947-S Peso and Half Peso MacArthur coins belong in every U.S. collection as a tribute to a great American General. It is our belief that these coins will not be too plentiful in the very near future.

Nationwide Franchising Concern Plans Entry Into The Coin Market

ST. Louis—Word was released this week that Midas Coin Centers will soon go into operation on a nationwide basis.

Robert Woodside, president of the company, stated that "the organization will eventually be international in scope, becoming the largest coin empire in the world." He further stated that the franchise system is expected to handle millions of dollars of coins annually with a minimum of one hundred centers to be opened in the first year and with a projection of one thousand within the next five years to meet continually increasing demands by coin collectors and coin investors. Home offices will be maintained at 111 S. Bemiston, St. Louis, Missouri. He said that there are over 10-million coin collectors in the United States today as compared to 2-million collectors 10 years ago.

Mr. Woodside summarized the franchise plan this way, "Midas has a five year history of outstanding growth and success. Our plan now is to project this proven formula for success at the local level through a network of Midas franchised, locally owned coin centers. We supplement this local effort by establishing a national image through the efforts of our staff of coin merchandising experts in cooperation with the local Midas franchise owner."

Mr. Woodside further elaborated on the Midas plan

"which is programmed to provide success opportunities for individuals seeking a profitable future in a business of their own." Midas gives specialized training and assistance to all qualified applicants. Prior experience in numismatics (the science of coins) is not necessary. Midas selects the best possible location, provides the most effective signs, proper display fixtures and shop decor. During the training period, the franchise owner receives an operational plan clearly defining responsibilities, successful store hours, tested promotional plans and complete operating policies. Also included in the training course is a complete up-to-the-minute study of the coin business, such as the history of coins, use of a nationwide teletype service on which more than a million dollar volume is transacted daily, bid board auction, coin shows, selling by mail, time payment plans, modern merchandising methods, financing and other essential data to insure the success of each Midas Coin Center.

Once the franchise owner has completed the training course and opened his Midas Coin Center, he will be furnished with periodic market letters and reports, a complete advertising program including ad mats and direct mail material

and continuous professional counseling service.

All this assistance is designed to help the individual Midas Coin Center Franchise Owner start successfully and maintain a healthy, profitable business. At the same time, the opening of additional Midas Coin Centers across the country will attract more customers and add to each center's growth thus providing greater service to the nation's coin collectors and investors.

THE subject of scarcity and appeal of silver dollars was humorously covered by Senator Milward L. Simpson of Wyoming when he described the antics of his constituents in Jackson, Wyoming in the following terms: "The intriguing nature of the silver dollar—the only kind that you can 'roll along the ground, and it

will roll because it is round,' in the words of a famous western ballad—is aptly illustrated by an incident July 22 in Jackson, Wyo. The Jackson State Bank celebrated its golden jubilee by giving out silver dollars. Jackson is a town of 1,440 people, but in less than 25 minutes, the bank found takers for 6,000 silver dollars and the bank's supply of 'cartwheels' is now completely exhausted.

"The Jackson Hole Guide reports that the line for the coins 'started forming before 8:00 Wednesday morning, and by

the time the bank doors were opened at 9:00, there were several hundred people standing in line. Some were local residents who requested up to their limit—\$100—and others were tourists wanting only one or two 'cartwheels' for souvenirs.

"One man brought a fishing creel to carry his dollars in. Women brought their biggest handbags. Shows how popular silver dollars are.

"The silver dollar is more than a means of barter and exchange in the Western States.

NORTHERN CALIFORNIA NUMISMATIC ASSOCIATION

* 3RD ANNUAL CONVENTION- DISPLAY AND AUCTION SALE

IT IS IMPORTANT THAT ALL BIDDERS READ THESE TERMS CAREFULLY.

THIS IS NOT A PUBLIC AUCTION SALE.

1. Admission to this sale is limited as follows: (a) Catalog Holders, persons issued catalogs in person or by mail by the auctioneers or designated members of their staff. (b) Members in good standing of the Northern California Numismatic Association or members in good standing with coin clubs affiliated with the above named association, and their guests.
2. All lots in this sale are guaranteed genuine as described in the catalog.
3. Prices indicated in this catalog are estimates only — higher or lower prices may prevail.
4. Minors will not be permitted to bid in this sale unless accompanied by their parents or legal guardian.
5. Duplicate lots will be sent when possible.
6. This is not an APPROVAL sale.
Lots are considered sold when awarded. If a bidder has doubt as to whether he wants an item or not, we respectfully request that he not bid until he is certain he wants it.
7. California State Sales Tax must be charged all California residents unless they hold a valid resale permit. In this event we will need a properly executed resale card showing the buyer's resale number. For the convenience of persons or firms holding resale numbers there is space provided on our bid sheets for this purpose.
8. Postal fees will be added to all invoices.
9. This SALE IS FOR CASH. Payment is due upon receipt of invoice. If you cannot pay, please do not bid. We suggest a minimum of 25% deposit accompany your bid sheet.
10. Successful bidders will be notified and invoices rendered as quickly as possible after the close of business on Saturday, September 12, 1964.

SPECIAL NOTES

MAIL BIDS ON SESSIONS 1, 2, and 3 of this AUCTION SALE will close at 12:00 NOON on THURSDAY, September 10, 1964. BIDS ON THE FOURTH SESSION of this sale will close on Monday, September 14, 1964.
To expedite mailing, it is probable that two teams will package and mail lots. Therefore it is possible that successful bidders will receive two or more packages and two or more invoices.
AUCTION LOTS WILL BE ON DISPLAY THURSDAY, September 10, 1964 at 2:00 p.m.
We are planning on moving into the JACK TAR HOTEL on Wednesday, September 9, 1964. If we can be service please do not hesitate to call on us.
Please accept our thanks and sincere appreciation for your participation and interest in this sale.
WE WISH YOU PERSONALLY EVERY GOOD FORTUNE!

- Dollars listed as UNC in this sale are strictly UNC. Most have normal bag markings but there are no culls. It will pay big dividends to examine this selection carefully. Most of these silver dollars are becoming very scarce and in lot of cases RARE. As far as this series is concerned it is truly "later than we think."

465 1799 \$10.00 Gold. About VF (515.00)
466 1801 \$10.00 Gold. EF, but repaired one place on rev. edge, bruise near date. Very nice appearing. (475.00)

vice Clubs of Nevada. limited issue of 500 serially numbered pieces. This medal is Nr. 238. 1964 NEVADA CENTENNIAL MEDAL, 1,000 only, struck in Sterling Silver by Masterpiece Medallions and all serially numbered pieces. The medal in this set is Nr. 291. 1964 NEVADA CENTENNIAL MEDAL IN "PROOF," 2,500 struck in Sterling Silver by Shawnee Hills, Medalists, and are also serially numbered pieces. The medal in this set is Number 311. Most attractive I believe of all of the Centennial medals struck. 1964 CARSON CITY CENTENNIAL TRADE DOLLAR, 5,000 struck. Issued by the Carson City Chamber of Commerce — a most controversial piece. Story on this made front page news in all Nevada papers when the FBI halted Carson City Chamber of Commerce and Carson City merchants from using coin for exchange. Struck in pot metal and leaves a lot to be desired quality-wise. Included in this set because it will have its place in history. This is the first time to my knowledge a set of these very RARE and historically important pieces have ever been available "under one roof." Attractively mounted in custom made plastic holder, shape of the State of Nevada with all pieces appropriately lettered in Gold. As we have many persons already interested in acquiring this set it would not surprise me to see bids over (750.00)

RARE 1937 PROOF SET

946	1937	Proof Set. A beautiful uncleaned set, some light coloring on the silver coins that is readily removable — the cent and nickel very choice; this set in great demand and rapidly advancing — Worth over	(375.00)
-----	------	--	----------

RARE 1939 PROOF SET

947	1939	Proof Set also in great demand. Far nicer than most sets. Some light toning on the silver pieces. Worth over	(165.00)
-----	------	--	----------

PROOF LIBERTY HEAD NICKELS

948	1911	Proof Nickel. Light film over surface. Some toning. Lists	(32.50)
-----	------	---	---------

949	1910	Proof Nickel. Nicer than most. Very light toning. Lists	(32.50)
-----	------	---	---------

950	1908	Proof Nickel. Very slight discoloring around some stars and date. A nice coin listing in proof at	(35.00)
-----	------	---	---------

951	1906	Proof Nickel. Discoloring or toning at date and stars — almost none on reverse. Lists	(35.00)
-----	------	---	---------

952	1905	Proof Nickel. Discoloring or toning obv. and rev. — Lists	(35.00)
-----	------	---	---------

953	1904	Proof Nickel. Very light discoloring around date and stars — Lists	(35.00)
-----	------	--	---------

954	1902	Proof Nickel. Light discoloring, mainly at date	(35.00)

955	1901	Proof Nickel. Spots at date and few other places on obv.	(35.00)
-----	------	--	---------

956	1900	Proof Nickel. Light discoloring on both obv. and rev. Spots on reverse, but still very desirable coin — Lists	(35.00)
-----	------	---	---------

957	1896	Proof Nickel. Somewhat a mottled discoloring on obv. and rev. A very scarce coin that now lists at	(90.00)
-----	------	--	---------

958	1894	Proof Nickel. Mainly fully brilliant with some corrosion at date and couple small spots elsewhere. Scarce	(45.00)
-----	------	---	---------

959	1893	Proof Nickel. One of the nicest in this group. Virtually free of all corrosion or discoloration. Lists	(37.50)
-----	------	--	---------

960	1892	Proof Nickel. Only one small spot in the "8" of the date — Lists	(37.50)
-----	------	--	---------

961	1891	Proof Nickel. Light golden coloring over part of coin — Lists	(38.50)
-----	------	---	---------

962	1890	Proof Nickel. Couple very minor colored spots. Lists	(37.50)
-----	------	--	---------

963	1888	Proof Nickel. Light golden toning, couple light golden colored spots with small corrosion spot near rim on reverse — Lists	(37.50)
-----	------	--	---------

964	1887	Proof Nickel. Again light golden coloring on obv., rev. has a few small spots — Lists	(35.00)
-----	------	---	---------

RARE 1886 PROOF NICKEL

965	1886	Proof Nickel. In very nice condition. About as near perfect as it can be found and as such in great demand. Sells over book	(150.00)
-----	------	---	----------

2.50 GOLD SET IN PLASTIC

966	1908-1929	2.50 Indian Head gold set. Complete in gold lettered white plastic. 15 pieces with 1911D EF. Balance of set will average VF-EF. Assuming 11D worth 300.00 and others only 20.00 each, set runs	(580.00)
-----	-----------	--	----------

CHOICE SET OF 5.00

967	Set of cuff links with 5.00 gold pieces. Both 1907-D, mounted in solid gold mountings in such a way as to not harm the coins. A beautifully mounted pair that literally are — fit for a king. Coins are about EF. Set is as new. It would cost close to 100.00 to have this set made up — Worth over	(80.00)
-----	--	---------

SOME COINS IN QUANTITY

968	Lot 10 Pieces U.S. Colonial coins in low grade. All scarce. Will run from fair

-----	---	---------

987	Lot 20 Pieces. As above but many coins only fair. Some scarce	(12.50)
-----	---	---------

988	Lot 20 Pieces Barber Half Dollars. Mixed dates. Duplicates. Few fair, mostly G & Better	(15.00)
-----	---	---------

989	Lot 20 Pieces Liberty Seated Halves. Duplicates. Some fair. Mostly VG	(40.00)
-----	---	---------

990	Lot Sealed bag of 1,000 Silver Dollars. Primarily all Morgan Head and supposedly out of gambling casino in Nevada. Circulated. Mixed dates. Although I doubt there are any great rarities in this bag, there are undoubtedly many scarce dates. Sold strictly "AS IS". Don't bid unless you want 1,000 Silver Dollars and do include 25 per cent deposit (?)

A FEW SCARCE SILVER

DOLLARS

RARE 1794 SILVER DOLLAR

1008 1794 Silver Dollar. First year of issue. Very rare and seldom offered for sale. This coin is strictly Fine to Very Fine. We notice in the new Red Book it lists \$2,750.00 Fine and \$5,500.00 VF. Worth over (4,000.00)

1009 1795 Dollar Bust Type. Another scarce coin. VF-EF (400.00)

1010 1859 Dollar. VF-EF. (37.50)

1011 1859-O Dollar. Brilliant. Uncirculated. Just a few very minor bag marks (70.00)

1012 1859-S Dollar. VF-EF. Another scarce coin (80.00)

1013 1872-S Dollar. Bought as uncirculated, but just the slightest rubbing. It lists at \$250.00 in Unc. Worth over (210.00)

1014 1878 8 Tail Feather Dollar. Selling in uncirculated very high — Unc. (30.00)

1015 1878 8 Tail Feather Dollars, as above, but 5 pieces, all uncirculated. (150.00)

1016 1878-CC Dollar. Uncirculated (14.00)

1017 1878-CC Dollars, as above but 5 pieces all uncirculated. (70.00)

1018 1878-CC Dollars, as above, uncirculated but 10 pieces (140.00)

1019 1881-CC Dollar B.U. Choice and scarce (85.00)

1020 1882-CC Dollar B. U.

Choice (42.50)

1021 1883-CC Dollar B. U. Also scarce (36.00)

1022 1883-CC Dollars. 5 pieces, as above. All uncirculated (175.00)

1023 1884-CC Dollar B. U. Scarce (44.00)

1024 1885-CC Dollar. Very choice B. U. (80.00)

1025 1885-CC Dollars. 3 pieces as above. Uncirculated, few bag marks (225.00)

1026 1886-S Dollar B. U. (40.00)

1027 1887-S Dollar B. U. Getting scarce (26.00)

1028 1888-S Dollar B. U. (40.00)

1029 1889-S Dollar B. U. (60.00)

RARE UNCIRCULATED

1889-CC DOLLAR

1030 1889-CC Dollar. The tough one to get in nice condition. This choice coin has been dipped to clean, has a slight flatness in hair over the ear, and a few very minor hairlines. Reported sales of this date coin exceed \$750.00. This choice coin should bring well over (600.00)

1031 1890-CC Very choice B. U. (24.00)

1032 1890-CC 5 Pieces uncirculated dollars. Few minor bag marks (110.00)

1033 1891-CC B.U. (20.00)

1034 1891-CC 5 Pieces all uncirculated. Few minor bag marks (100.00)

1035 1892-S Dollar. About EF and scarce (40.00)

1036 1892-CC Dollar B. U. (66.00)

1037 1893 Dollar B. U. (57.50)

1038 1893-S A gorgeous coin that from a wear point of view is right at EF. However coin has been lightly buffed, mainly on the obv. side. Perhaps former owner wanted it to resemble a proof. I am calling this coin VF which I feel is conservative and I also feel it can be put in any collection with great pride of ownership (400.00)

1039 1894-P Another very scarce dollar. Strictly uncirculated with a few minor bag marks. Selling near (350.00)

1040 1894-S Dollar. A very nice B. U. (45.00)

1041 1896-S Another very scarce silver dollar with a bright future. B.U. (125.00)

1042 1898-S Dollar. B. U. (33.00)

1043 1899 A gem. B. U. and scarce (52.50)

1044 1899 5 Pieces VF or better. Scarce (85.00)

1045 1899-S A proof surface coin with hairline in proof surface. B. U. (50.00)

1046 1898-O B. U. (7.50)

1047 1898-O B. U. As above, but 5 pieces. All B. U. (35.00)

1048 1899-O B. U. (4.00)

1049 1899-O B. U. As above but 10 pieces. All B. U. (40.00)

1050 1900-O B. U. (4.00)

1051 1900-O B. U. Just as above but 10 pieces. All B. U. (40.00)

1052 1900-S A choice B. U. with one small toning line on coin (26.00)

1053 1901-O B. U. (4.00)

1054 1901-O As above but 10 pieces. All B.U. (40.00)

1055 1901-S Choice B. U. and scarce (30.00)

1057 1902-O As above but 10 pieces. All B. U. (40.00)

1058 1902-S Choice B. U.

Slight toning just starting to form (47.50)

1059 1903-O Dollar. B. U. Another coin with a good future (55.00)

1060 1903-O As above but 5 pieces. All B. U. (250.00)

1061 1903-S Choice B. U. Couple very minor bag marks keeps this beauty from the flawless Gem Class. Very underrated and worth over (200.00)

1062 1904-O B. U. (7.50)

1063 1904-O As above but 10 pieces. All B. U. (75.00)

1064 1904-S Choice B. U. and I think even harder to find than 1903-S. Well worth over (140.00)

PEACE DOLLARS

1065 1921 Peace dollar. An uncleaned average nice uncirculated. Very popular (33.00)

1066 1925-S B. U. Peace Dollar (19.00)

1067 1927-D B. U. Few minor light bag marks (40.00)

1068 1927-S B. U. A virtual gem (40.00)

1069 1928-S B. U. (17.50)

1070 1934-D B. U. With just the slightest toning. Scarce (32.50)

1071 1934-S Very light wear or rubbing. Conservatively called VF-EF and has considerable mint lustre (75.00)

1072 1935-S Choice B. U. Last year of issue (45.00)

COMPLETE SET UNCIRCULATED PEACE DOLLARS

1073 Set of Peace Dollars complete 1921 through 1935-S. All 24 pieces are mounted in Library of Coins Book. The 1928-P and 1934-S are very nice as in fact are all the rest. A set with terrific future. Worth over (650.00)

TRADE DOLLARS

1074 1873-S Trade Dollar. EF-AU. With considerable mint lustre (50.00)

1075 1873-CC Trade Dollar. Sharp VF. Couple minor edge nicks. Very scarce (45.00)

1076 1874-S Trade Dollar. A. U. (25.00)

1077 1875 Trade Dollar. Sharp EF with 3 Chinese Chops showing actual usage in the Orient. Quite scarce. So nice (30.00)

1078 1875-CC Trade Dollar. VF-EF. Light even wear. All Carson City Trade Dollars becoming scarce, especially in better grades (32.50)

1079 1876-CC Trade Dollar EF. Coin has been cleaned, evidence of some corrosion near rim on lower right obv. (45.00)

1080 1876-S Trade Dollar. AU. Actually I don't believe coin has ever seen any circulation. Only bag abrasion. Some attractive toning (23.50)

1081 1877 Trade Dollar. About EF. All coins dated 1877 are popular (16.50)

1082 1877-CC Trade Dollar. VF or better. 3 chop marks showing usage in the Orient for which Trade Dollars were intended (57.50)

1083 1877-S Trade Dollar. B.U. With a few very minor bag marks. A choice coin. Ideal for type set (35.00)

1084 1878-S Trade Dollar. About EF (16.00)

1085 1880 Proof Trade Dollar. All Trade Dollars in proof are very rare and in great

demand. This nice proof coin has a couple scratches in field in front of knee and only a minor hairline or two otherwise. Still a choice and desirable coin worth and selling in choice proof near \$190.00. This coin should bring over (100.00)

VERY RARE ALASKA GOLD NUGGET DOLLAR

1086 Alaska Valdez Gold Nugget So-called Dollar. See "So-called Dollars" by Kennedy No. 220. A dollar-sized disk with a good sized Gold Nugget in center of obv. A very rare item seldom offered. Worth over (300.00)

VERY RARE CONFEDERATE HALF DOLLAR

1087 1861 Confederate Half Dollar. (See page No. 247 in Red Book). A rare and desirable coin. Uncirculated with rev. well struck, slightly noticeable acid test mark near knee of obv. These were regular U.S. 50c coins re-struck as Confederate coins, therefore obv. side is not as sharp as rev. This coin has nice obv. and wire edge rim. Lists at (650.00)

SCARCE LINCOLN

CENTS IN QUANTITY

1088 1909-S Lincoln Cent. F-VF (40.00)

1089 1909-S Lincoln Cent. EF-AU. Possibly cleaned long ago. Attractive (70.00)

1090 1909-S VDB Cent. A sharp VF. Very minor and hardly noticeable rim nick (190.00)

1091 1909-S VDB Cent. Choice lustrous, full Red BU Scarce. So nice—Lists (335.00)

1092 1910-S Cents. 5 pieces. G or Better. List in Red Book at (17.50)

1099 1912-S Cents. 5 pieces. VG. (40.00)

1100 1912-S Cents. 5 pieces. Fine (52.00)

1101 1913-S Cents. 5 pieces. G or Better (18.00)

1102 1913-S Lincoln Cents. VG or Better. 5 pieces (25.00)

1103 1913-S Cents. 5 pieces. Fine or Better (35.00)

1104 1914-P B.U. May have been cleaned, if so a very nice job. Very slight attractive toning (35.00)

1105 1914-D Cent. Fine. All wheat lines visible Scarce (75.00)

1106 1914-S Cents. 5 pieces. G or Better (25.00)

1107 1914-S Cents. 5 pieces. VG. (33.00)

1108 1914-S Cents. 5 pieces. Fine. (43.00)

1109 1915-P Cent. Choice B.U. May possibly have been cleaned some time ago, if so a most excellent job. Full mint color (110.00)

1110 1915-D B.U. Full mint color, just slightly toning (30.00)

1111 1915-S Cents. 5 pieces.

All G or Better (22.50)

1112 1915-S Cents. 5 pieces. VG. (30.00)

1113 1915-S Cents. 5 pieces. Fine (35.00)

1114 1921-S Cents. 5 pieces. strictly F or Better. Now list (17.50)

1115 1922 Plain Cent. A most difficult coin to grade by the usual standards since this coin only exists due to a bad die. It is almost never found sharply struck. Although the wheat lines are not fully visible on one side. I call this coin VF. It is seldom seen nicer. Worth over (70.00)

1116 1922-D Cents. 10 pieces. Very Fair & G (32.50)

1117 1922-D Cents. 10 pieces. G-VG (40.00)

1121 1924-D Cents. G-VG. 3 pieces (50.00)

1122 1924-D Cents. VG to Fine. 3 Pieces. Now list (75.00)

1123 1924-D Cent. F to VF. Quite scarce (31.00)

1124 1924-D Cent. Bought as A.U. but I call it a little lower. EF-A.U. A pleasing appearing coin that is hard to find (67.50)

1125 1926-S Cents. G-VG. 10 pieces (32.50)

1126 1926-S Cents. VG. 10 pieces (50.00)

1127 1926-S Cents. Fine. 5 pieces. Scarce (33.00)

1128 1926-S Cent. Strictly VF. Lists (13.00)

1129 1926-S Cent. Bought as uncirculated, but coin is cleaned. EF or A.U. Light toning. Lists EF at 22.50 and uncirculated at 140.00 (40.00)

1131 1931-D Cents. 5 pieces. Fine-VF (35.00)

1132 1931-D Cent. Uncirculated. Nice color, few very minor bag marks visible with a glass. Now lists (85.00)

1133 1931-S Cent. Strictly F or Better. (42.50)

1134 1931-S Cent. Bought as uncirculated, but appears to be lightly buffed. Almost like a proof. Called EF and lists as such at (57.50)

1135 1939-D Full roll. VF-EF. A scarce roll, this nice at (70.00)

1136 1955-S Full roll. VF-EF or Better. Popular item (17.50)

1137 1936 Proof Lincoln Cent in full brilliance. Rare—so nice (90.00)

1138 1937 Proof Lincoln Cent in full brilliance. Very scarce (40.00)

1139 1938 Proof Lincoln Cent in full brilliance. Scarce (19.00)

1140 1939 Proof. Brilliant with attractive iridescent colors giving it a dark hue at first glance (12.00)

1141 1950 Proof Cent obv. Full original brilliance. Rev. brilliance with just a slight toning starting. It has been estimated that there must be several thousand 1950 Proof Sets needing this coin to make the set a choice set, therefore we anticipate

U.S. MINT SET COINS

The following coins are all from a choice mint set which was housed in black leatherette holders. The set has been in a vault since 1957. Many of the coins therefore have light toning or tarnish. Since many collectors prefer uncleaned coins or to do their own cleaning we offer these just as they come, however all are strictly uncirculated.

- 1142 1936-PDS-1937-PDS Cents. Very little toning. All 6 pieces uncirculated (13.00)
- 1143 1938-PDS-1939-PDS Cents. Very little toning. All 6 pieces uncirculated (21.00)

- 1333 Hawaii Silver Medal. Same as above. 1 piece. Issue cost. New (25.00)
- 1334 Set McArthur - Philippine 1947 set 1½ pesos. 2 pieces mounted in gold lettered deluxe lucite holder. B.U. (10.00)
- SOME SCARCE U.S. COINS TYPE COINS**
- 1335 1793 Half Cent. A very popular and hard to acquire coin. While this coin is graded as good to very good, it has a clear date, liberty and head design, the reverse is quite worn. Most of legend readable but half cent in center of coin is not visible. Worth over (300.00)
- 1336 1795 Half Cent, no pole. VG but considerable surface corrosion, yet a pleasing appearing coin. Worth over (70.00)
- 1337 1857 Large Cent. Last year of issue. Large date coin grades VF but has been cleaned and nicks or digs in hair obv.,; couple nicks rev. (26.00)
- RARE TRANSITIONAL 1958 CENT**
- 1338 1858 Indian Head Cent Pattern Judd No. 211, AW No. 263 copper nickel. These transitional coins have enjoyed great popularity in recent years. Possibly cleaned long ago. If so, a nice job. Attractive proof. Very minor rim abrasion noticeable with a glass. Sells near (300.00)
- 1339 1857 Flying Eagle Cen. EF (25.00)
- 1340 1858 LL Flying Eagle Cent.

- VF (22.50)
- 1341 1858 Small letters. Choice full color. Brilliant uncirculated. Rare. So nice. This attractive coin has brilliant, proof surface (150.00)
- 1342 Set Flying Eagle Cents. 1857, 1858-LL&SL. All fine. 3 pieces (35.00)
- INDIAN HEAD CENTS**
- 1343 1859 First year of issue. Uncirculated with a couple minor bag marks on face. Mostly full brilliance. Some light toning rev. (82.50)
- 1344 1861 Bought as A.U. I call EF even though some lustre still does show (39.00)
- 1345 1863 Cent. Brilliant uncirculated (22.50)
- 1346 1864 Copper Nickel Cent. Brilliant uncirculated (55.00)
- 1347 Set Indian Head Copper Nickel Cents. 1859-1864. 6 pieces. VG (33.00)
- 1348 1864 Bronze. Brilliant uncirculated (60.00)
- 1349 1864-L About VF, but coin quite dark both obv. and rev. Liberty sharp and full. Nice appearing coin (70.00)
- 1350 1865 Cent. Uncirculated but dark. Some lustre showing. Lists (40.00)
- 1351 1865 Cent. Choice. Full color. Brilliant uncirculated. (44.00)
- 1352 1866 Cent. VF (42.50)
- 1353 1867 Bought as maroon. Uncirculated, but I call about A. U. A choice and desirable coin that will fit in any choice set (75.00)
- 1354 1869 Good-Very good (21.50)
- 1355 1871 Sharp. VF-EF. A scarce coin (80.00)
- 1356 1872 EF. Light toning on rev. Well struck (115.00)
- 1357 1877 Strictly good and popular. Now lists in good (100.00)
- 1358 1877 Indian Cent. Bought as EF-A.U., which I feel is some too high. Coin is a nice EF. Light even wear and very scarce. Now lists over (480.00)
- 1359 1880 Choice B.U. (29.00)
- 1360 1884 Gem. Brilliant uncirculated (40.00)
- 1361 1885 Gem. Brilliant proof. Proof gems bring over book (95.00)
- 1362 1908-S Strictly F or Better. Lists (37.50)
- 1363 1908-S Strictly EF. Lists (62.50)
- 1364 1908-S Gem. Brilliant uncirculated. Rare. So nice (135.00)
- 1365 1909-S Indian Head Cent. F or Better. Sharp. Lists (130.00)
- 1366 1909-S Indian Head Cent. About EF. (195.00)
- GEM**
- BRILLIANT UNCIRCULATED**
- 1909-S INDIAN CENT
- 1367 1909-S Indian Head Cent. Gem, full original red brilliant uncirculated. Probably the nicest of this date we have ever handled. Worth over (375.00)
- LINCOLN HEAD CENTS**
- TWO AND THREE CENT PIECES**
- 1368 1909-SVDB Lightly toned. Uncirculated. Mostly brilliant. Never cleaned. A well struck coin. Now lists (335.00)
- 1369 1931-S Brilliant uncirculated (85.00)
- 1370 1864 Two Cent. Small motto. EF or Better. Rare, so nice (125.00)
- 1371 1851-O Three Cent Silver. Toned. VF-EF (50.00)
- HALF DIMES**
- 1372 1801 Half Dime. Bought as Fine or Better and I guess it is but rim cut or pinch left of bust and coin not too well struck up on rev. A difficult

- coin to grade properly so you can accurately visualize it. I grade it about fine. (235.00)
- 1373 1805 Half Dime. Another coin hard to grade. VG-F, but several small dents near rim. All detail clear. Worth over (150.00)
- 1374 1837 Half Dime. No stars obv. Large date. A scarce type coin. F-VF (77.50)
- 1375 1855 With Arrows. Half Dime uncirculated. Another nice type coin (24.00)
- 1376 1873-S Half Dime uncirculated, but toned quite dark. Uncleaned (25.00)
- BUFFALO NICKELS**
- 1377 1913 Type 1. B.U. (7.50)
- 1378 1913-D Type 2. Uncirculated with just the lightest rubbing (70.00)
- 1379 1913-S Type 2. G-VG. Scarce (32.00)
- 1380 1913-S Type 2. A.U. Couple very minor rim nicks or bag marks (90.00)
- 1381 1914-D F to VF (32.00)
- 1382 1937-D 3 Legged Buffalo. F to VF (50.00)
- RARE 1796 DIME**
- 1383 1796 Dime. First year of issue and in great demand for type sets. Date is very bold and clear, bust and eagle fully visible. Coin was bought as VG but I would call it not better than a weak G, since all of legend is not readable. Very scarce (260.00)
- 1384 1805 Dime. 4 Berries. Nice, VG (85.00)
- 1385 1805 Dime. 4 Berries. Bought as A.U., but EF closer (300.00)
- 1386 1873 Arrows. Dime. About fine (18.00)
- RARE 1873 - CARSON CITY DIME**
- 1387 1873-CC Dime. A sharp, very fine or better. Couple very minor hair line scratches from circulation. A very scarce coin and hard to get. Seldom seen better than VG. This VF coin worth over the Red Book value of (750.00)
- TWENTY CENT PIECES**
- 1388 1875-S Twenty Cent. VG to F (25.00)
- BARBER & MERCURY DIMES**
- 1389 1896-S Dime. Good (25.00)
- 1390 1898 Dime. Brilliant gem proof (55.00)
- 1391 1900 Dime. Uncirculated. Few light bag marks (12.50)
- 1392 1902 Dime. Brilliant proof (51.00)
- 1393 1916-D Mercury. The rare one. Bought as about VG, but I call it a real nice good sharp and clear (85.00)
- 1394 1917-S B.U. (19.00)
- 1395 1920-D Full frosty. B.U. (35.00)
- 1396 1921-D Commonly called good. Some lettering on rev. worn (11.00)
- 1397 1921-D Strong G-VG (14.00)
- 1398 1931-S B.U. Few light bag marks visible with a glass (45.00)
- QUARTER DOLLARS**
- 1399 1836 Quarter. A scarce type coin. VF. (21.00)
- 1400 1855-S A weak good. No figuring marks. Very scarce. Lists G (40.00)
- RARE 1873-CC QUARTER WITH ARROWS**
- 1401 1873-CC Quarter with Arrows at date. VF-EF is conservative grading I do believe. All detail very sharp. Coin has a dark patina with no marks or scratches. Very attractive and only those who have been trying to find it know how rare the coin is. I've looked quite a bit but can find no record of this date being offered in bet-

- ter than fine for past several years. Should realize very near (1,000.00)
- 1402 1878-S Quarter. Bought as Fine, I call strictly VG. Scarce (175.00)
- 1403 1896-S Quarter. F to VF. Sharp, well struck and rare (350.00)
- 1916 STANDING LIBERTY QUARTER**
- 1404 1916 Standing Liberty Quarter. A demand coin, very hard to acquire. Bought as VG, but top of the date is not visible. About 2/3 of the date is very clear. It may have been the strike instead of wear. I still believe VG is an honest grade for coin (325.00)
- 1405 1917-S Type 1. B.U. Some attractive toning (40.00)
- 1406 1917-S Type 1. Uncirculated. Not as nice as above. May have been cleaned (50.00)
- 1407 1917-D Type 2. B.U. Has not been cleaned (60.00)
- 1408 1923-S Quarter. Bought as B. U., but some light rubbing, called A.U. (175.00)
- 1409 1926-S Quarter. Another coin bought as B.U., but again either a somewhat weak strike or light wear. Well worth over (100.00)
- 1410 1932-S Washington Head Quarter. Choice EF. (40.00)
- RARE 1873 CARSON CITY DOLLAR**
- 1411 1873-CC Dollar. Bought as Fine, but field in front of knee has had repairs, possibly initials removed leaving slight depression and then coin was foolishly buffed in this area. I'd call coin VG. It is very rare, only 2,300 pieces minted. Rev. of coin is VF (450.00)
- 1412 1884-CC Dollar. Proof Surface B.U. (50.00)
- U.S. GOLD COINS**
- 1413 1838-C 2.50 Gold with mint mark on obv. Obv. is VF. Rev. is VG (190.00)
- 1414 1939-D 2.50 Gold with mint mark on obv. VF or B. Scarce (225.00)
- 1415 1848-C 2.50 Gold A.U. and also scarce (190.00)
- 1416 1856-C 2.50 Gold. Low mintage. VF. Minor rim nick. (115.00)
- 1417 1911-D 2.50. A rare coin in great demand. This coin bought as uncirculated. Just lightest rubbing makes me call it choice A.U. (365.00)
- 1418 1878 3.00 Gold. Uncirculated (250.00)
- 1419 1838 5.00 Gold. EF and scarce (95.00)
- 1420 1838-D 5.00 Gold. Mint mark on obv. F-VF. Scarce. (190.00)
- 1421 1848-D 5.00 Gold. VF, but mounted and repaired on rev. (80.00)
- 1422 1849-C 5.00 Gold. About VF (95.00)
- 1423 1853-D 5.00 Gold. Sharp. VF (115.00)
- 1424 1892-CC 5.00 Gold. EF and choice (50.00)
- RARE ROMAN NUMERAL MCMVII DOUBLE EAGLE**
- 1425 1907 20.00 Gold. Date in Roman Numerals MCMVII. A beautiful and rare coin that will enhance any collection. Uncirculated. Wire edge with just the slightest rubbing to keep it from the gem class. Worth (750.00)
- 1426 1849 Pioneer 5.00 Gold Moffat & Co. F.VF. Very scarce (265.00)
- 1427 Pioneer 5.00 Gold. 1.00 Bechtler. 28G. Star Carolina Gold VF or Better. N rev. (135.00)
- 1428 1915-S Commemorative Gold. 2.50 Pan Pacific. Uncirculated.

Very scarce (390.00)

1428A Tube with one ounce small gold nuggets from California gold mines (60.00)

ATTENTION!

LOT 1429, IS THE FEATURE LOT IN THIS SALE. — THANK YOU!

It is indeed a great privilege to offer such an outstanding rarity in this Auction Sale. After considerable research I consider it vital to outline some history as pertains to this historical coin.

Counterstamped by "LADD and TILTON" in 1871 certainly makes this piece unique, and in my opinion enhances its value greatly, since this is the only "LADD and TILTON" counterstamped OREGON BEAVER TEN DOLLAR piece discovered as of this date.

As a consequence I feel that the consignor's reserve of \$10,500.00 is certainly reasonable due to the fact that the Walton copy of this coin sold in October of 1963 for \$10,500.00.

I expect tremendous interest in this "Queen" of Oregon Gold coins.

END OF THIRD SESSION

This Session concludes all "Floor Sessions" of this Auction Sale.

Your coins and invoice will be ready in approximately an hour.

We respectfully call your attention to SESSION FOUR which constitutes MAIL BIDS only. As is mentioned previously in the catalog this MAIL BID SESSION does not close until the close of business Monday, September 14, 1964. The auctioneer or any member of his staff will be pleased to accept bids on any lot in this Session.

Thank you again for your participation.

Plans

(Continued from Page 25)

It is virtually an institution. The idea of hard money in one's pocket is identified with a hard conservative fiscal policy synonymous with spending only what is at hand to be spent, and exercising fiscal restraint and prudence.

"Recent action of the Senate Banking and Currency Committee in reporting favorably a bill to freeze the 1964 date on all new coins was applauded in Wyoming, for the people of my State are cognizant of the deleterious effect that the hoarding of coins by speculators has on the availability of currency for its bona fide purpose—the facilitation of trade.

"Twenty years ago the silver dollar was as common in the West as its paper counterpart is in the East today; but, unfortunately, Jackson, Wyo., is not the only western municipality finding itself bereft of silver dollars.

"Plans to raise the annual minting capacity from 4.3 to 9 billion coins by next July, augmented by passage of a \$600,000 appropriation for the minting of a new run of silver dollars presumably all bearing the 1964 date, should go a long way toward alleviating the shortage of silver dollars throughout the West.

"I am pleased to note that even my favorite TV performer, Mitch Miller, has rallied to the cause. With his beard a-bobbin' Saturday night, his sing-along chorus filled the airways with the chorus of the western ballad to which I alluded a moment ago: Oh, you can roll a silver dollar all along the ground, and it will roll because it is round."

"Numismatics may prove more profitable as a hobby than as an investment" states urbane Lawrence Armour in the August 3 issue of Barron's. In an article titled: Other Side of the Coin, Mr. Armour has analyzed commercial numismatics in depth. His verdict: risky business! The article is extremely well documented, interviews and statements were collected from Stack's, Empire Coin Co., Friedberg of Capital Coin Co. A brief exploration into Gresham's law, statements by Handy & Harman and official sources all aptly interwoven provide interesting reading.

Unknowningly perhaps Mr. Armour prodded the heart of the problem when he referred to "one New Jersey dealer, whose office consists of a tele-

type-equipped den." Editor's note. — Mr. Armour's words bring to mind an interesting conversation with gregarious and outspoken Elliott Cashdan, Fort Worth dealer of unimpeachable integrity: "Why should I want to deal with a guy who has a teletype in the back of his bric a brac furniture shop."

HAWTHORNE, Calif. — Announcement has just been made of Hawthorne's FIRST ANNUAL COIN EXPOSITION, one of the first ever sponsored by a Chamber of Commerce.

The show will inaugurate the new Hawthorne Memorial Park Building and Convention Cen-

ter. A bronze medallion incorporating the City of Hawthorne, California and the Chamber of Commerce "Space Theatre of Operations" will be presented free of charge to the first 5000 persons attending the show. Eighty dealers from all over the United States and Canada have

been invited to take part in this Coin Exposition.

A MESSAGE OF IMPORTANCE FROM PICKWICK

DEAR FRIENDS:

INCREASED competition has forced PICKWICK, to give consideration to the addition of PROOF SETS and ROLLS, to our existing line of coins for the collectors.

We must therefore consider and recognize the continued interest and fabulous upward trend of the investor, as well as the investor collector and their particular needs in proof sets and rolls.

Now this finds PICKWICK, in an awkward position!
NONE IN STOCK!!!
Sooooooooo !!!!

Just ship your proof sets with the dealers' current buying prices, or your selling price to PICKWICK, we will pay highest prices now to build up our stock. On rolls please write first state your supply and price wanted.

NO DELAY! YOU'LL LIKE OUR WAY! SELL TO PICKWICK WITH CONFIDENCE!! "REMEMBER: WE NEED YOU " WE WANT TO MEET YOUR PRICES!! SOOOO SHIP NOW!!

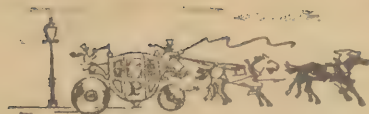

PICKWICK, also wants to buy COLONIALS, KEY and SEMI KEY coins and early Gold, Silver and Copper U.S. coinage.

Thank you all for your continued interest, and we do hope that within a month or so we will be able to take care of your particular needs, whether a collector's item or coins for investment, look to PICKWICK, and watch future publication for our advertisement on PROOF SETS and ROLLS. Help us and we will do our utmost to help you all. Kindest regards.

Very truly yours,
Philip E. Benedetti

Space City Averages:

How They Are Obtained

With close to 1,500 separate statistics appearing each week in PACE, a need exists to express this information in graphic form for busy readers.

We are currently charting eight different coin series each week as you see below. These charts are based on Space City Averages, an arbitrarily chosen group of rolls which we feel are representative of the total for that series.

To be included in the Space City Averages rolls are chosen on the basis of three factors: (1) their trading is constant, (2) they are widely held, and (3) they are indicative of the series.

It is obvious infrequently traded items, closely held items, and extremes in the series would not serve this purpose.

Each week the statistical staff of PACE prepares these averages from the information obtained on The American Numismatics Exchange transactions.

The amount expressed in the Space City averages is the total market bid prices for the rolls included in the averages. This is a dollar figure and is compared with previous week, month, and year figures for analysis.

The high and low for 1964 is also shown.

MARKET SUMMARY

By Russell Brown

August 5, 1964

THERE were smiles on the dealer's faces this week as the roll market seemed to come out of the doldrums and point toward an early break out of the summer slump. While there were healthy signs to be found everywhere, the brightest spots seemed to be in Jefferson nickels and Washington quarters. The 1955 issues were also hot and rising. (See the 1955 box score on page 3)

Many investors got an early hint of a Jefferson rise several weeks ago when the 1950-D began to trade upward toward the \$900 mark. This week it reached \$900 and seventeen other issues advanced with it. Only three Jefferson issues showed small losses. The gains were spread throughout the entire series. Keys, war years and late dates were all in demand. Blanket buy lists appeared on tape for the first time in weeks. Many of the gains were in the three to five dollar per roll range.

The Washington quarter picked up steam and made yet another 1964 high. The 1955-D jumped \$12 in heavy action and was closely followed by the 1946-S with a ten dollar gain. (This particular rise made some of the tip sheet boys look like crystal ball wizards) Twelve other issues advanced against only two declines.

Lincoln cents presented a mixed picture with heavy action but little price change activity. One item was noted however by quite a few sharp eyed individuals. The small dates are showing signs of life again. The Philadelphia small

date came out of its decline and scored a five dollar gain. And the Denver version reached the \$18 bid level on good volume. The 1955-S cent was also in demand and showed signs of heading up toward its previous highs.

Roosevelt dimes would have been a grim sight this week except for the fabulous fifty-fives and the 1949-P. Each of these issues gained on heavy trading and forced the series into an advance in spite of itself. Of the 1955 issues it is questionable which is the most desirable, the P or D. Both appear to be well on the way to new highs.

In Franklin half dollars, the two keys, 1953-P and the 1955-P hogged the spotlight with gains of ten and fifteen dollars respectively. On other end of the line, the 1951-D, S, and 1949-P all lost five dollars or more in light action.

Morgan dollars have turned in-

to a field of individual movement with no series trends recognizable. While the 1903-P, 1885-S and the 1878-P7tf all rose \$8 or more per roll, the 1881-CC, 1885-CC and 1878-P 8tf were hit with losses in two figures. The entire CC sub series appears to be very weak with the only exceptions being the issues prior to 1883. Declines prevailed over advances in a two to one ratio, but the averages advanced slightly.

Surprisingly enough, the Peace series was quiet this week in the face of the announcement of new dollar minting to come. There was some wonderment as to just what date would appear on the issue. We live in strange times when that item can be questionable.

The proof sets rush is over and only a few price changes appeared on tape during the week. The run on the 1964 set is complete and the price is moving down ac-

cordingly. Even the older sets have cooled to the point of discontinuing their weekly advances. The only set which experienced no difficulty in making another advance was the 1951. There was also a small amount of desire shown for the sets of 1957 and 1959.

On the Canadian side of the proof set market, there were many offers to sell and few to buy with the result that prices sagged somewhat from their preceding week's highs.

Circulated coinage took it on the chin for another week with a general decline in all denominations.

THE MARKET OPINION

And so the roll market appears to be on its way. Several of the country's biggest dealers when contacted, stated that they were looking forward to a good fall with this much activity appearing early in the year. Most of the smaller denominations are showing good signs of life and a run may soon be in process in Jeffs and quarters to name two.

Now that the proof set game is over, the smart money will be looking for a place to light, and it would seem that the Jefferson nickel would be as good a place as any. A possible alternative to this is the continuation of the advance being staged by all issues of 1955. Could it be that we might be entering a phase of the market in which a run is made on all issues of a date rather than all issues of a series? How about that for a weird thought?

American Numismatics Exchange Transactions

BU Roll Prices as of Wednesday, August 5, 1964

These bid and asked prices, from the American Numismatic Exchange Inc., do not necessarily represent actual transactions. They are a guide to the range within which these coins could

have been sold (indicated by the "bid") or bought (indicated by the "asked") at the time of compilation. Price changes are obtained by comparison of weekly bid prices.

Prices are wholesale quotations compiled from the American Numismatic Exchange teletype system which serves 195 coin dealers across the country.

Based strictly on the 1965 Red Book prices, the following

DATE	MINTAGE	PRICE PER SINGLE	REMARKS
1822	wide and close date	2,072,339 \$95 Unc.	Helfenstein sale should set tone for future prices. Could bring higher prices in near future.
1829	small letters large letters	1,414,500 \$100 Unc. \$55 Unc.	
1816		2,820,982 \$55 Unc.	Esteemed commitment even in strict Unc. condition.
1818		3,167,000 \$40 Unc.	Representative of average prices.
1847		6,183,669 \$30 Unc.	Numerous oddities to be offered at Helfenstein sale.
1857	small date large date	333,456 \$90 Unc. \$75 Unc.	Attractively priced, warrants retention.
1841		1,597,367 \$47 Unc.	Very attractive price, ideal for type collection.
1845		3,894,804 \$30 Unc.	Attractively situated in market, reasonable at current levels.

EXHIBIT VIII

issues (see exhibit 8) can be considered as representative of the large cent market in more common dates; some issues because of their low price characteristics could be considered attractive long term investments. The word "investment" when mentioned in conjunction with large U. S. cents

will undoubtedly be considered as an heresy by some. Nonetheless, in view of their rarity and extreme beauty, large U. S. cents can be rightfully considered as a fine investment and at the same time fulfilling the aesthetic needs of the most demanding collector.

MIN. LAYAWAY NOW \$50.00
PLEASE NOTE NEW LAYAWAY RULES!

May we suggest the best way to enhance your investment in coins is to use the W. H. Foster, Inc. LAWAWAY PLAN! You just pick out your needs and we'll put them in the vault in your name . . . ready to mail. Pay 20% down and the balance in monthly installments (or sooner if you desire!) All Lay-away Items are insured and sent prepaid at delivery.

The following are our Layaway Rules:

1. Minimum Layway amount is \$50.00.
2. Add 4% to total order.
3. Send 20% down payment and pay 20% a month. 4. Certain items will be marked "no layaway."
5. Penalty: If payments are not complete, money will be refunded less five per cent of total order.
